

Dear candidate Member of BLBG,

The Belgium Luxembourg Business Group (BLBG) is the only business community in Singapore that brings together Belgian, Luxembourg, Singaporean and international companies, executives and entrepreneurs.

During the past 10 years, we offered our members a variety of lunch talks, breakfast meetings and other business related events focused on a wide spectrum of business topics relevant to Singapore and the Asian market in general. High-level guest speakers share information, experiences and best practices in various business fields. At the same time, we provide an exclusive forum for networking amongst professionals and executives representing these various business areas. We reach out to the international business community in Singapore and welcome Singaporean and international professionals, companies and organisations interested in or currently doing business with Belgium or Luxembourg.

Our well-established partnerships with the Belgian and Luxembourg Embassies and Belgian regional trade organisations enable us to offer exclusive opportunities to our members. We ensure that our members can participate with trade missions and have the opportunity to join important government delegations visiting Singapore. As official member of the Board of Eurocham, BLBG creates a direct access to a wider forum for networking and information sharing with the entire European business community.

Exclusively for companies we have the Platinum or Gold Membership packages, offering a wide range of benefits, free invitations and exclusive advantages. Platinum and Gold Members also benefit from access to a larger audience thanks to exclusive advertising and sponsoring opportunities through our website, mailings and during our monthly events.

Corporate and Individual Membership packages target smaller companies and professional individuals looking for great network opportunities, business support and interesting discounts on BLBG events. BLBG membership surely is a valuable asset for your business activities in Singapore or Asia, as experienced by our existing members for many years.

We hope to welcome you soon as our new BLBG member; you will certainly experience the overall advantage of joining our network... which will result in several professional benefits, an extended network and increased visibility!

Best Regards,

Peggy De Rop
BLBG President
